Little Landscapes

Mondays September 14 and 24 1-4pm

No sewing machine required for the first class

Fabrics:

Don't spend too much time looking for the perfect fabrics. Often landscape themed fabrics are not the proper scale. If you find one that works (or you just love it) give it a try. Don't be afraid to rule it out if it doesn't seem right. You can try commercially printed sky fabrics or dye your own. Remember these little quilts are small so keep that in mind. I like to avoid obvious cloud shapes as they are often "cartoon-like" and don't give a very realistic feel. Landscape fabrics can be dots and textures. They should be random uneven designs with no specific repeat. Avoid recognizable patterns, i.e. plaid... little ducks.... I'll also bring my scrap collection to share

This project only requires small amounts. Fat quarters are more than enough for yourself and to share with a friend.

Seascape

5 -7 different values of blue (I usually have double that amount and eliminate several)

Sky fabric White fabric for last wave Scraps of lace (optional)

Beige textured fabric for sand Mottled brownish-blackish fabric for foreground rocks

Lighter mottled fabric for background rocks

Landscape

5 - 7 different values of green (I usually have double that amount and eliminate several)

Sky fabric Mountain fabric Bluish-grayish fabric for foothills

Other fabrics depending on personal scene choice,

i.e. lavender fields, golf course, lake with boat, fence posts, flowers, buildings.

Borders and backing: Fat quarter

Small amount of fusible web

Small and large fabric scissors

Basic Sewing Supplies*

Long pins (I like flower heads because they lay flat)

Thread to match fabrics for topstitching and quilting

Thread to match fabrics or neutral for bobbin

16"- 18" square cotton batting

Open toe appliqué foot (optional)

24" square of foam core (or equivalent) portable design wall (you need to be able to pin into it)

Use layering and topstitching techniques while exploring the art concept of atmospheric perspective. Learn a clever way to do an "envelope-turn" finish that eliminates hand stitching an edge closed. Have a fun and "artsy" day!

**List of what I consider basic sewing supplies is available upon request.*

Class size limited to: 6
