The Fall leaves were purchased from the fabric store (Jo Ann's). You know, those bunches of autumn "silk" leaves on wire stems? The fabric leaf pulls away from the plastic veins very easily., I backed them with stabilizer and ironed them in place. Yes, they're washable. In fact, Marilyn freshens up her faux plants by tossing in the washer with a little dishwashing detergent on gentle. When the spin cycle has finished they're dry and ready to rearrange. Who knew?!

Purchase of original pattern required.
(Instructions for creating all blocks, signs, etc. are included in the pattern.)
