

Locally Grown Tropical Delight

(approximately 23" x 26")

Purchase of original pattern required.
(Instructions for creating all blocks, signs, etc.
are included in the pattern.)

This version of Locally Grown has blocks that are about 1/3 smaller than the original pattern. Each time I'd create a new quilt the same fabrics kept ending up in the discard pile. I loved them but they were never quite the right size. After studying them a bit I realized their scale was smaller compared to everything else, but compared to each other they were fine. Putting them in the standard sized boxes also made them seem small. Thus, the design you see here evolved.

If you are interested in creating this smaller version, please email me and I'd be delighted to send you the information you need as well as the sketch for the palm and beach.
